

TIPS FOR CYBERSECURITY AWARENESS MONTH

Implement these simple tips to ensure safety and security online for both you and your business

1 PATCHES

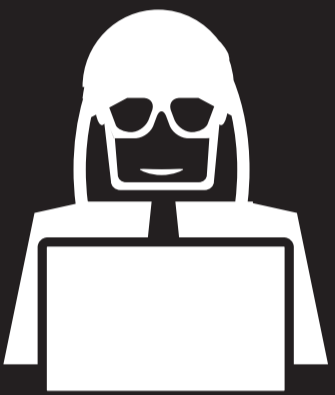

Contain software directed to improve cybersecurity

Install patches immediately to ensure optimal running condition and security

2 PHISHING

Criminals use fraudulent attempts to obtain sensitive information

Be aware of your browsing habits and pay attention to who is contacting you

3 PASSWORDS

Create strong passwords and keep them in a safe place

Make sure each account has a unique password and opt in for two factor authentication

4 PASSWORD MANAGERS

Place all of your passwords in a secure vault

Set up a password manager on your computer or in the cloud

5 LOCK SCREENS

Devices protect privacy via the input of a passcode or biometrics

Go into your device settings and follow simple directions to enable a lock screen
